

Turbo Tubs Spa/hot Tub Vision Cartridge

Turbo Tubs Retail Store - 520 W. 5th Ave. Naperville (630)-305-9942

Using The Ozone / Vision Purifier System with D1 Spas

SPA MFG / MODEL: _____ GALLONS: _____

INITIAL SPA START-UP / DRAINING & REFILLING (DRAIN & REFIL EVERY _____ MONTHS OR AS NEEDED)

**** REPLACE NATURE 2 VISION (BAG / ROD) CARTRIDGE AT THIS TIME.**

***FILL SPA WITH HOSE INSIDE FILTER ELEMENT AREA (REMOVE BASKET) (TO PURGE AIR OUT AND AVOID AN AIRLOCK).**

1. Water Test: test fill water PH & Alkalinity level w/ GLB test strip

A. Dip Test Strip In Water For 1 Second & Remove It:

B. Compare "Ph" Test Pad Color To Bottle Color Chart:

Yellow = Low Ph Acidic/corrosive Water

Orange = Neutral Ph/good Balanced Water

Red = High Ph /alkaline & Scale Forming Water

C. Compare "Alkalinity" Test Pad Color To Bottle Color Chart:

Yellow = Low Alkalinity Level/Under-Stable Water (Big Ph Swings)

Green = Good Alkalinity Level/ Stable Water

Blue/green = High Alkalinity Level/over-stable Water (Resists Change)

* TURN ON SPA HIGH SPEED JET PUMPS TO MIX CHEMICALS INTO SPA WATER *

* ADD EACH CHEMICAL SLOWLY TO SPA , ONE AT A TIME, AT SPA FILTER AREA *

2. Adjust Alkalinity & Ph Levels If Needed:

A. Adjust Alkalinity To Normal Level first, before adjusting PH

B. If Alkalinity Is low - Add Alkalinity up (1-2 Tablespoons)

C. If Alkalinity is high - Add PH down (1-2 TBSP)

D. If Ph Is low - Add PH up (1-2 TBSP / Up to 1 Ounce)

E. If PH is high - Add PH Down (1-2 TBSP / Up to 1 Ounce)

3. Add _____ Ounce(s) "Spa Perfect" (1/2 Capfull) or "Natural Clear" (Cap)

4. Add _____ Ounces Glb Activate (Measure Using Bottle Top)

5. Add _____ Tablespoons Granular Spa Chlorine To Energize Vision

* KEEP HIGH PUMP ON 15-20 MINS / ADJUST HEATER TEMP / (WAIT 24 HOURS)

6. Install Vision Cartridge Inside Filter / Telescopic Basket (Cut Stem Extension After Water Is Ph Balanced And Crystal Clear.

MAINTENANCE W/ BOTH OZONE & VISION PURIFICATION SYSTEMS

WEEKLY:

1. Clean Interior Walls With Scumbug Duramitt *Turn on Spa High Speed Jets*
2. Add _____ Ounces GLB Activate (Circulate Jets 15 Minutes)
*NOTE: IF YOU DID NOT USE THE SPA THE WEEK PRIOR DO NOT USE ANY ACTIVATE *
3. Water test / dip & Remove test strip, check PH and Alkalinity test pads colors to bottle for results
*NOTE: NEVER TEST FOR BROMINE / CHLORINE ON TEST STRIP
4. Adjust Alkalinity & Ph Levels If Needed Per Test Results
5. Add ___ Ounces Natural Chemisty "Spa Perfect"
6. *this System Is Chlorine Friendly. Use Granular Spa Chlorine (Teaspoon - Tablespoon) Weekly As A Supplement If Needed To Correct Cloudy/ Smelly Water. Never Use Bromine!

MONTHLY (ADD TO ROUTINE)

1. Add _____ Ounces GLB Spa Clarifier (Note *DO NOT ADD EXCESSIVE AMOUNTS)

EVERY 6-8 WEEKS (ADD TO ROUTINE)

1. (Power Off) Remove and clean (pressure wash) spa filter

EVERY 4 MONTHS (ADD TO ROUTINE / DRAIN & FILL):

1. (Power Off) Replace disposable nature 2 "Vision" Ion cartridge
2. (Power Off) Remove & clean filter(s) w/ filter cleaner / minute rinse

EVERY 6 MONTHS (ADD TO ROUTINE):

1. Treat spa cabinet with Wood water sealant / protectant
2. Clean and treat spa cover with sunstar cover cleaner & Sunstar cover conditioner (Do Not Use Armor All ETC...)

HELPFUL NOTES:

1. A small squirt of GLB Foam out reduces sudsing and foaming water during spa use...
2. Add 1-2 Ounces of GLB activate after heavy spa usage (Party, Etc)...
3. Replace Spa Cartridge filter(s) every 12-18 months.....
